French - France

Walla Walla University is a member of the Adventist Colleges Abroad consortium. Foreign language majors who have not had residence in a country in which their language is spoken are required to spend their sophomore or junior year abroad. Academic credit will be granted as listed below for these studies so that a student may be able to complete a full college year abroad. Prospective ACA students must have an overall cumulative GPA of 2.5; and completion of ENGL 121, 122, and a general studies math course. Applicants should consult with their major professors, the modern language department, and the Registrar prior to enrollment.

All B.A. students are required to complete a foreign language sequence of 12 quarter hours at the elementary level or 8 quarter hours at the intermediate level. A maximum of 9 credits may be earned in the summer program. Therefore, students will not be able to complete the general studies language requirement with summer enrollment.

French Major
A student majoring in French must complete 41 quarter hours beyond the second quarter of the intermediate level in the major, the required cognates, the general studies requirements, and all baccalaureate degree requirements as outlined in this bulletin.

Students participating in the Adventist Colleges Abroad program and majoring in a foreign language must complete a minimum of twelve hours of upper-division courses in the program at Walla Walla University after their year abroad. All majors are required to pass the departmental comprehensive examination.

French Minor
A student minoring in French must complete 28 quarter hours beyond FREN 102; 8 quarter hours must be upper-division. Eight hours of intermediate-level language is required. Approval of the academic adviser required.

Language minors are required to spend a minimum of one quarter of study abroad after one year of language at the university level or two years at the high school level. ACA courses will be counted towards residency.

Check the ACA bulletin for course descriptions and prerequisites.
