HEALTH PROFESSIONS SCHOLARSHIP PROGRAM (HPSP)

The F. Edward Hébert Armed Forces Health Professions Scholarship Program is one of the most comprehensive health care scholarship programs offered by the Department of Defense. A renewable, monthly stipend is available for qualifying students pursuing one of the more advanced health care careers in the world.

TUITION

Warranty 100% of your tuition for a graduate-level health care degree at any accredited school in the United States and its territories.

Eligible programs include:
- Medical
- Dental
- Veterinary
- Pharmacist
- Optometrist
- Graduating specialty Nursing

INCENTIVES

The HPSP program provides a number of incentives to help you focus more on your studies and less on costs. Incentives include:
- Monthly stipend at over $2,500
- Reserve officer pay on a second loan repayment for 5 years while on active duty training
- Allowances with cost-of-living
- Pay increase for active-duty and other active duty

ELIGIBILITY

To qualify for the Health Professions Scholarship Program, you must:
- Be a U.S. citizen with a recommendation from accredited school
- Be无论 in, or have a letter of acceptance from a U.S. military health care program or the medical school of your choice
- Maintain full-time student status during the length of the program
- Qualify as an active duty commissioned officer

BE PART OF SOMETHING BIGGER

While you may think you’re just one of the health care specialists who are helping to advance health care, you are an important part of the team.

You’ll join over 40,000 health care careers, your mission to save lives. With the power of your scholarship and the strength of military training, we will determine the future of our active duty and our country.

Your contribution is essential to our mission.

AT THE FOREFRONT OF MEDICINE

The U.S. Army has been named one of the world’s most innovative organizations. In just three years, we have cared for over 300 patients in science, technology and medicine. Currently, Army doctors are in Phase II trials for HIV and breast cancer vaccines.

As part of this elite team, you’ll explore and pioneer ways that make a big impact.

CUTTING-EDGE TECHNOLOGY

From apps on your phone to quantum computing, U.S. Army medical professionals develop technologies and tools that reduce recovery times and increase quality of life for patients. Our medical facilities are some of the most advanced in the world, and our cutting-edge technology allows you to be a part of their development.

Be part of an elite team at the forefront of medical technology.

CONTINUED GROWTH AND OPPORTUNITY

As part of U.S. Army health careers, you will be connected to one of the world’s largest, most funded and high-tech health care systems.

Army medical professionals provide unique opportunities to be a leader, for career growth, and more immediate opportunities to become one of the experts in your field.

As you practice medicine, innovate and teach.

PRACTICE

With over 90 professional health career paths, you can practice in your graduate area of medicine with continued support from our team of experienced medical professionals.

The U.S. Army doctor is part of your active service medical professional. So you can focus on what matters most—your patient’s health.

INNOVATE

Perfect your specialty and push the boundaries of your field with the support of a team focused on research, development and collaboration.

The Army gives you access to the medical minds around the world to pioneer new medical technologies and medical practice.

You’ll have the opportunity to make a difference in the field of medicine.

EDUCATE

Even after you’ve finished school, you’ll continue to innovate, educate and teach opportunities for the rest of your career.

The U.S. Army health careers provide a wealth of continuing education, so you’ll always be able to share your expertise and learn new skills without the financial burden.
