Expression is emotional. The eyes, the brows, the eyelids, the nose, the mouth. The eyes are the windows to the soul. The mouth is the gateway to the heart.

Expression is the language of emotions. It is the way we communicate our feelings to others. It is the way we express ourselves to the world.

Expression is the way we communicate with the world. It is the way we express ourselves to others. It is the way we communicate our feelings to the world.

Expression is the way we communicate with the world. It is the way we express ourselves to others. It is the way we communicate our feelings to the world.

Expression is the way we communicate with the world. It is the way we express ourselves to others. It is the way we communicate our feelings to the world.
The patient's name is John Doe and he is being seen by Dr. Alice Johnson. The history and physical examination were performed by Dr. Bob Smith. The diagnosis is acute low back pain. The patient has been prescribed rest and over-the-counter pain medication. Further treatment will be discussed at the next visit.
