Puget Sound Naval Shipyard

Puget Sound Naval Shipyard and Intermediate Maintenance Facility, located near Seattle, Washington, is operated by the United States Navy to overhaul, modernize and maintain naval vessels such as aircraft carriers and submarines. The majority of the employees, including over 900 engineering positions, are civilian. We offer competitive pay, 12-26 vacation days, and 10 paid holidays each year. Candidates should look forward to further development of their leadership, teamwork, and communication skills while working in the pristine Puget Sound area.
