Walla Walla University
Faculty, Administration, and Staff

Dear Colleagues:

Walla Walla University has a vital interest in the safety and wellbeing of all faculty, administration, staff, students and the public that we serve. Because we care, we desire the entire university family to do all it can to promote safety and avoid loss.

The creation and maintenance of an environment that is safe for work, study and play, requires the interest, cooperation and dedication of everyone in our university family. Losses, injuries and accidents can be prevented, and a safe environment exists only when we all observe safety procedures as an integral part of all that we do.

Safety ranks right along with efficient quality service for our faculty, staff and students. It is our policy that all levels of management will make accident and loss prevention a priority concern. The responsibility for the safe operation of each department rests specifically with the supervisor in charge of that area and needs the cooperation of all employees.

It is the responsibility of each of us to accept and comply with all safety and health standards and work rules, regulations, and instructions that are applicable to our own actions and conduct. Thank you for helping to make this university a safe and pleasant place for us all.

Sincerely,

[Signature]

John McVay
